ADVISE, INFORM, MEDIATE

Supporting young parents with
their baby during the first years

*Babylotse (baby guide) is a registered trademark of Catholic Children's Hospital Wilhelmsstift gGmbH, respectively of SeeYou - Family-Oriented Aftercare in Hamburg.

Support provided by baby guides*

The first years with your baby are very special for young parents. The new phase of life not only brings changes - but often also many questions. The **baby guides** of the Waldeck-Frankenberg district are available to parents and prospective parents with advice and information. They advise young mothers and fathers so that they are well looked after and informed after the birth of their child.

Help & advice

The **baby guides** offer advice and information about early intervention offers. They can provide tailored help during pregnancy and after the birth - and support pregnant parents, single parents, young pregnant women, mothers, and fathers during pregnancy and after the birth of the child. Interested parties can contact the **baby guides** directly or be contacted by them upon request. The offer is free of charge. The **baby guides** are bound to confidentiality.

Maternity hospitals

The baby guides offer consultation hours in the birth clinics of Hessenklinik Stadtkrankenhaus Korbach and of Kreiskrankenhaus Frankenberg. Further information is available at
